Declares He Is Being Used as a Cat's-Paw in the Post-Office Investigation.

HIGH OFFICIALS SHIELDED?

New York State Senator Says He Not Only Will Be Able to Clear Himself, but Show Where Blame Truly Belongs.

REPUBLIC SPECIAL Washington, Sept. 24.-Late in October the first hearing in the Post-Office Department scandal will open in the District Court. The case with which the court will begin is that in which A. W. Machen, W. G. Crawford and Mr. and Mrs. Lorenz of Toledo are charged with conspiracy to defraud the Government.

Attorneys for Machen and the other defendants had a long conference to-day with District Attorney Beach, at which it was decided that the Machen case is to come first, and the last Monday in October is the date which probably will be agreed upon for the hearing.

Charles J. Bonaparte, whom President Roosevelt named as special attorney to assist in the Post Office investigation, had a long conference to-day with Assistant Postmaster General Bristow. They are said to have discussed the case of State Senator George E. Green of New York, who recently was indicted, together with George W. Beavers.

The Evening Star prints the following special dispatch from Binghamton, N. Y.,

concerning the Green case: "United States District Attorney Curtis said he had notified the Government to bring on its witnesses from Washington for the hearing of the case here Monday. Sensational developments are expected that will implicate Washington officials

anat will implicate Washington officials not now under suspicion.

"This is according to a statement made by close personal friends of Senator Green that the latter is being made a cat's-paw to shield higher officials in Washington, and that, if he goes on the witness stand—which he will do if the case comes to trial—he will make full and free disclosures that will clear himself and place the blame on the shouders of the Washington officials also.

"His attorneys, John B. Stanchfield and Messers. Roberts, Tuttle and Rogers, refuse to discuss this feature of the case, but intimate that the real fight has not yet begun."

It was said at the Department of Justice to-day that no formal request had come from District Attorney Curtis at Binghamton, to be relieved of his duty of prosecution because he was an intimate triend of Senator Green. The fact of his friendship he has explained to the officers of the department, but they see no reason why he should not continue to represent the Government in the case at Binghamton.

When the case comes to trial at Wash—

When the case comes to trial at Wash-ington District Attorney Curtis will, of course, not be engaged, as it will then be removed from his jurisdiction.

Go Ling, the young Chinese boy who came to St. Louis to receive his education, has been the object of much comment at the Benton School, so rapidly has he advanced in his studies during his three days at that institution.

His teacher is Miss Christine K. Cameron. When he started to school he was put in the lowest class. In this class are children ranging in age from 6 to 8 years. They are taught to read and write solely by the use of objects,

## PLAN FOR UNION MEETING ABANDONED

Committee Reports That No Scheme Advanced Is Considered Feasible.

WILL REPORT TO ALLIANCE.

Abandoning Movement Clears Way for Separate Denominational Movements During World's Fair.

The committee appointed several months ago to prepare for an interdenominational evangelistic movement in this city during the World's Fair met last night in the boardroom of the Central Y. M. C. A. and decided to report to the Evangelical Alliance next Monday that no plan proposed seems feasible, and to recommend that the movement be abandoned.

The committee has done everything within its power to bring about satisfactory preliminary arrangements, but failed. Its action last night puts an end to the World's Fair meetings, as the alliance will no doubt receive the report and discharge the committee.

Such action will clear the way for the mion meetings which have been proposed by various denominations.

The idea of an interdenominational evangelistic movement was conceived during the Campbell Morgan meetings in the Odeon last winter. Before the evangelist left the city there was a meeting of laymen of the several denominations and it was proposed to erect a tabernacle for the services.

men of the several denominations and it was proposed to erect a tabernacle for the services.

The evangelist was regarded as the natural leader, and during the spring and early winter made several trips to this city to consult with the committee. At one time it was announced that the movement would certainly be a success and that Mr. Morgan would be in charge.

The primal cause of the failure seems to have been the inability to secure proper financial support. The church members, to whom the committee looked for the main support, declared that they were already burdened with World's Fair investments and projects, and could not contribute. All saw the opportunity to do good, but the money was not forthcoming.

Finally it was announced that Dyangelist Morgan had declined the leadership, and from then but little interest could be sustained. Pastors left the city for the summer, and no meeting of the committee could be heid until last night.

Now that final action has been tolen, it is expected that the denominational committees, which have been appointed, will work with increased vigor, and that next summer will see, instead of one, at least three large evangelistic meetings in this city.

#### VISITATION ALTAR CONSECRATED. Bishop Glenuon, Assisted by Priests,

Performs Long Ceremony. The new altar in the chapel of the Visitation Convent, at Belt and Cabanne avenues, was dedirated by Bishop Glennon yesterday morning, in the presence of the sisters of the community and the students of the institution.

Bishop Glennon hal as his assistants in the lengthy ceremony the Reverend Father O'Rourke of the Church of St. Mark the Evangelist, the Reverend Father Hoeschen of St. Rose's Church and the Reverend Father Offarles, C. P.

by of consecrating an altar is one of the longest rituals of the Catholic Church, consuming more than two olic Church, consuming more than two hours. It is founded on the biblical account of the consecration of the ark. After the crucifixion of Jesus the sepulchers of martyrs were used as altars, and before them was said the holy mass.

All altars to this day bear a symbol of the tomb of Christ, and into this tomb is always placed well authenticated relies of the martyrs. These relies were placed in the convent altar yesterday morning, the little vauit sealed with cement, upon which, while it was still fresh, the seal of the Bishop's ring was implanted.

The altar was erected by the Society of the Alumnae of the institution, formed twelve years ago, when the convent was moved from Cass avenue to its present location.

twelve years ago, when the convent was moved from Cass avenue to its present location.

The society took the chapel with no furnishings, and to-day it is complete. The organization has expended more than \$20,000, and will be dissolved as soon as details can be wound up.

The striking feature of the new altar is its simplicity. The decorations of the chapel are ornate, and the sisters considered it wise to have the altar impressive by its contrast with its surroundings. It is of the finest of marble, and is sixteen feet high. The central figure is that of the crucifixion, which is seven feet high. At the base are two angels, one supplicating and the other adorning the figure of the Christ.

On the tabernacle door is carved an angel in the act of swinging the censor. Occupying a prominent place on the front of the altar and below the mensa is a representation of the Last Supper. The expression upon the faces of the persons represented is remarkable.

Six massive gold candiesticks grace the altar, each the gift of an Archbishop of the Catholic Church, whose names will not be announced. The altar is illuminated by electricity.

The large auditorium was crowded, and many were turned away.

It is not an ordinary thing to see a Catholic priest addressing a Protestant body, but Father Coffey expressed the hope that it would become ordinary. He spoke of the shirking of Christian people from fighting the saioons.

"We are fearless champions of law and order against Judge Lynch," he said. "We denounce bribe-givers and bribe-takers, but we are so careful not to say ugly things against the liquor traffic.

"Hundreds of clergymen, to prevent being called cranks, keep their hands off and every one of them is a hireling."

Father Coffey declared the Catholic Church to be opposed to the saloons. After the address nearly every one in the auditorium came by the speaker's stand and shook hands with him.

#### FORFEITURE OF \$200 BOND CHARGED AGAINST DOCTOR

Arrested in Arkansas to Answer Complaint of Seventh Wife.

Deputy Sheriff Bernard Dickmann and Attorney James Shaner arrived at the Four Courts yesterday morning, having in charge Doctor Samuel Johnson of No 3126 Chouteau avenue, whom they brought back from Blytheville, Ark., for alleged bond forfeiture.

Doctor Johnson has been married seven times. Recently he was arrested on a charge of abandoning his seventh wife Judge James R. Claiborne signed Johnson's bond for appearance in court. The son's bond for appearance in court. The bond was fixed at \$200. Johnson did not appear. It was found that he had gone to Blytheville with his sixth wife. Shaner, who is a partner of Judge Clai-borne, and Deputy Sheriff Dickmann, to save the \$200 for Judge Claiborne, went to Blytheville to try to induce Johnson to re-turn.

Johnson refused to accompany them, and they threatened to handcuff him and take him to the Sheriff's office at Blytheville. He then consented to go with them. Instead of going to the Sheriff's office they drove to the railroad station just in time to catch a train coming to St. Louis. Johnson was put on the train and was soon brought over the State line. SILVER SCORES ANOTHER RISE

Government Refuses to Buy for Philippine Coinage.

REPUBLIC SPECIAL Washington, Sept. 24,-All offers of silver bullion for the Philippine coinage were rejected by the Treasury Department today on account of the high prices demanded. The offers amounted to 360,000 ounces and the prices asked ranged from 60.25 to 60.58 cents per ounce. The price of silver in London to-day was 279.16 pence per in London to-day was 273.16 pence per ounce, which was equivalent at the average rate of exchange to-day to 59.4 cents. This price has reduced the difference between the bullion value of the Philippine pesos and their face value to a very narrow margin. The price of silver at which these two values are equal is 54.1 cents per ounce. On the basis of to-day's London quotation a further increase of but 3.7 cents per ounce will completely wipe out the present margin between the bullion value and the face value of the pesos.

Negro Charged With Theft. Daniel Garrett, a negro porter at the Franklin Hotel, Sarah street and Westminster place, was arrested minster piace, was arrested yestellar, afternoon on a charge of stealing £2 from Frances W. Beded, manager of the hostelry. The money was locked in a box in the storeroom. It is alleged that Garrett broke open a box to get the money, while Samuel Stabley, steward of the hotel, was absent.

Justices Cannot Commit Boys.

Topeka, Kas., Sept. 24.—The Supreme Court to-day rendered a decision that Justices of the Peace cannot commit boys to the Reform School. The decision released three boys who were sent here recently from Nemaha County.

JUMPING UP Is a great deal harder than jumping

Is a great deal harder than jumping down. And yet people who have been for years running down in health expect to jump back at once. It takes years generally to make a man a confirmed dyspeptic, and he cannot expect to be caused in a few days.

There is no suicker. in a few days.

There is no quicker means of cure for dyspepsia or other forms of stomach trouble than by the use of Dr. Pierce's Golden Medical Discovery. It cures diseases of the stomach and other organs of digestion and mutrition and builds up the body with sound flesh and solid muscle.

"I was taken seek two years

flesh and solid amastle.

"I was taken sick two years ago, "writes Rev. W. H. Patterson, of White Chend, Ala," with what the doctors thought was gastric trouble, indigestion or servors dynograis, also costipation and inactive fiver. I was in a decadrial condition. Tried several different doctors with but little result. I had gotten so feeble that I was almost past traveling about; had got down to fix pounds. I went and benght six bottles of Golden Hedical Discovery, and got the "Pellets" and hegati following directions When I had taken shout five bottles I felt very much better and was greatly in proved, and weighed one hundred and thirty-eight pounds. I will say that Df. Pierce's medicines are a Godsend to poor suffering hunsanity, and I ndvise any and all chronic sufferers to give them

Accept no substi-tute for "Golden Medical Discovery." There is nothing "just as good" for diseases of the stomach.
